To Whom It May Concern,

Over the years, Leket Israel has been continually inspired by Ample Harvest and Gary Oppenheimer's innovative approach to feeding the needy and eliminating waste. The initiatives by Ample Harvest have allowed millions of people in America to help alleviate the problems of hunger and malnutrition, raising the standard for similar organizations throughout the world.

Serving as the country's National Food Bank and largest food rescue network, Leket Israel works to alleviate the problem of nutritional insecurity amongst the growing numbers of Israel's poor. Similar to Ampleharvest.org, Leket Israel welcomes food donors throughout Israel to access our partner agencies using the Leket app.

I would like to second the nomination of Gary Oppenheimer for the World Food Prize, as I do not believe that there is anyone more deserving of such an honor.

Sincerely,

Joseph Gitler
Founder & Chairman
